FREQUENCY OF TESTLET DELIVERY DURING SPRING 2015 TESTING
Frequency of Testlet Delivery During Spring 2015 Testing

The system delivers only one testlet at a time in each subject. After the student takes the first testlet, the system delivers the next testlet. When the next testlet will be available depends on these variables:

- The system looks for students who are ready for their next testlet at the top and bottom of each hour (e.g., at 10:00 and 10:30). This process runs all day, through all time zones.

- During typical testing volume, the next test is assigned within 30 minutes after the student is identified as being ready for the next testlet. That means a student would typically receive the next testlet in 60-90 minutes or less after finishing the previous testlet in that subject, depending on what time the testlet was finished.

- During peak testing volume, next testlet assignment may take longer. In the worst case, a student should still be able to receive two testlets per day, per subject (one in the morning, one in the afternoon).

NOTE: If after 90 minutes a new testlet has not been delivered, please CALL the DLM/KITE Help Desk at 855-277-9751.

The following information is required in order to process the delivery of the next testlet:

- State
- District Name
- School Name
- Student First and Last Name
- Student State ID
- Subject of missing testlet (English language arts or mathematics)
- Previous testlet name (Ex: DLM-VanDonsola-YE ELA RI.3.9 DP-DistalPrecursor-1234567)
