

NUMBER MATCH

Performance Standard 28C.B

Demonstrate knowledge of numeric words accordingly:

- *Knowledge*: Understand vocabulary for numerical terms. Match the correct numeral for the term written in the target language.
- *Comprehension*: Match numbers to the written terms for those numbers.
- *Communication*: Use interpretive skills to identify numerical terms in the target language.

Procedures

1. *In order to understand written passages in the target language (28C)*, students should experience sufficient learning opportunities to develop the following:
 - Relate the written form to the spoken form of familiar language (e.g., simple greeting, basic vocabulary, numbers, dates, time).
2. Provide each student with a copy of the task sheet. Have students review and discuss the assessment task and how the rubric will be used to evaluate their work.
3. Practice with students counting objects, identifying numbers when presented on flash cards in random order and reading number words in the target language.
4. Instruct students to indicate correct answers by writing the number next to the word.
5. Evaluate each student's performance using the Foreign Language Rubric and add the scores to determine the performance level.
 - *Knowledge*: 4 = 18-20 correct, 3 = 14-17 correct, 2 = 10-13 correct, 1 = 1-9 correct
 - *Comprehension*: understood written forms of numbers.
 - *Communication*: identified correct written forms of numbers.

Examples of Student Work follow

Time Requirements

- 10 minutes

Resources

- Copies of the "Number Match" task sheet for each student
- Foreign Language Rubric
