INSTRUCTIONS:

Indicate whether your school is not-for-profit or for profit. Count all 12th grade graduates (including mid-year graduates) who completed their graduation requirements during the past school year. Indicate whether the students are day students, resident students, or mixed day and resident students. Estimate the number of students, ages 5-17, from low-income families (students whose families are receiving public aid, students living in institutions for neglected or delinquent children, students who are being supported in foster homes with public funds, and students eligible for free or reduced-price lunches). If there are no students in your school who would be defined as low-income, enter zero. This estimate is needed to determine if a nonpublic teacher is eligible for a National Defense or a National Direct Student Loan discount.

This school is: Not-for-Profit For Profit

Number of 12th Grade Graduates for Last School Year (including mid-year graduates): Female _____ Male _____

Estimated Number of Pupils from Low-Income Families: _____

INSTRUCTIONS:

Full-time equivalence is defined as the amount of time employed in an assignment category divided by the amount of time that a full-time NON-VOLUNTEER employee would be expected to serve in that assignment category. One full-time equivalent number is expressed as 1.0.

The following examples illustrate how full-time equivalence should be computed:

- a. If a teaching position were filled by two persons, one male and one female, each working one-half day, count each person as 0.5 and add 0.5 to the count for male teachers and 0.5 to the count for female teachers.
- b. If a full-time employee were assigned to teaching one-half time and worked as a guidance counselor the remaining time, count this person as 0.5 teaching and 0.5 pupil personnel services staff.

Include FILLED NON-VOLUNTEER POSITIONS ONLY and round each full-time equivalent number to the nearest tenth decimal place. For example, round to 1.4 if the computed equivalence number equals 1.38.

Pre-Kindergarten Teachers includes teachers of students below the kindergarten level or ages 3 through 4.
