Minor Entity Profile Changes

For EPS Categories A, 1, 2, 3 and 4 (see following CDS Code/Gatekeeper Chart), all minor changes can be made in the new Entity Profile System (EPS) in IWAS by an authorized user who has been granted EPS access by their local IWAS administrator.

Examples of minor Entity Profile changes:

- Administrator Name
- Address
- Phone Number
- Fax Number
- Email Address
- Grades Served

**Note: IWAS Administrator Changes**

If the Administrator has changed (including Regional/District Superintendent, Nonpublic School Administrator, Special Ed Director, etc.), ISBE will process the change in EPS and will email or fax the entity an IWAS administrative account letter that contains IWAS setup instructions and an access code for the creation of a new IWAS administrative account. The outgoing administrator's account will be deactivated.

IWAS questions should be directed to the ISBE “IT and Educator Licensure Call Center” at 217-558-3600, Option 2.

For all other Entity Profile Categories, all requests must be made on the organization's letterhead, signed by the chief administrator (see following Entity Profile Code/Gatekeeper chart, and directed to:

Illinois State Board of Education
Attention: IT Division/Computer Operations S-395
100 North First Street
Springfield, IL 62777
FAX: 217-782-1976

**Situations Requiring Code Change**

An Entity Profile Code changes only when there is a “significant” change in grades served.
• “Significant” means having grade level changes that by definition, would place a school in another category
  o Example: changes a middle/junior high school to a high school.

Certain changes do not result in a change in school coding. Examples include:
- new principal
- new address
- new building
- minor changes in grades served
- new school name

School name changes must be reported to the ISBE IT Division/Computer Operations (see previous contact information provided).

Because of ISBE’s various tracking needs, school code changes will not be made for schools that are on any academic watch/warning/school improvement list (including schools not making AYP) without the approval of policy-level management. See section 9 for more information on requesting changes to codes that affect schools in status.

For new schools, each district should contact ISBE before July 1\textsuperscript{st} in preparation for the next school year. A district may also add a new school at some time mid-year. The same ISBE notification process applies (see below).

Note: However, if a new school is added as a part of a restructuring process or if it impacts students attending a school in federal or state status, the request cannot be made through the annual update procedure. See Section 9 for more information.
