

Illinois Report Card Narrative Guidance: Equity Journey Continuum

Custom narratives embedded in key metrics on the Illinois Report Card site enhance the ability of local schools and-districts to use the site to tell their story. All of the narrative entry fields support plain text and some simple text formatting when pasting content in from another text editor, but do not support HTML tags or other advanced text formatting. All narrative fields can be edited at any time with the resulting edits passing through to the Report Card site (generally within 24 hours).

The narrative you provide here will be displayed on the top of an individual district's Equity Journey Continuum main page. It can be submitted and/or subsequently edited by **authorized district personnel**. The Equity Journey Continuum narrative supports up to 4,000 characters in length (including spaces).

Providing this narrative is entirely optional and will reset with each new Report Card release in October so that your comments can be updated to remain relevant as your district's reported data changes over time.

This feature, which is available within MyIRC, is described below.

- **Step 1:** Go to <https://www.illinoisreportcard.com/>.
- **Step 2:** Click on "Login" in the upper right-hand corner of the webpage to access MyIRC.

Equity Journey Continuum

Equity means having high expectations for every learner and providing supports and resources so each learner can meet those expectations. In practice, this may look like "a parity among student groups in terms of educational outcomes or access to a resource. A fit between resources and student needs. Adequate effort to lessen the effects of structural disadvantages that disproportionately affect different student groups." [Learn More](#) ▼
